WebUp#56 AI agenti: Ked' 80% úspešnosť znamená 100% bolesť Žilinské IT pod Lampou - Kempelenov inštitút, Vlkov Mesačník

Lokálne komunity WebUP Žilina

Vlko

12d

WebUP je stretnutie nadšencov pre vývoj webu a súvisiacich tém v Žiline. WebUp#56 bude konáť vo 26.3.2025 18:00 fyzicky on-site v KC Hoffmann Žilina! Prid' si vypočuť skvelé talky, naučiť sa nové, dať si pivko a pokecať nielen o web technológiách s rečníkmi a navzájom.

#1 AI agenti: Ked' 80% úspešnosť znamená 100% bolesti hlavy - Ján Jakubčík (KInIT)

Triezvy pohľad vedeckejho inžiniera na súčasný hype roku agentov.

Som výskumný inžinier v Kempelenovom inštitúte inteligentných technológií v Bratislave. KInIT je prvý nezávislý vedecký inštitút na Slovensku. V súčasnosti sa venujem výskumu auditov recommender systémov, aj s pomocou umelej inteligencie.

Na prednáške vám ukážem základy použitia agentov s umelou inteligenciou a vysvetlím, prečo je dôležité byť skeptický a pripravený na inžinierske peklo pri ich nasadení do produkcie.

#2 Žilinské IT pod Lampou - Kempelenov inštitút - Michal Gregor (KInIT)

O tom, čo robí a ako funguje Kempelenov inštitút inteligentných technológií (KInIT), príde porozprávať výskumník Michal Gregor. A aj o sebe. KInIT je nezávislý výskumný inštitút – prvý svojho druhu na Slovensku. Jeho misiou je vytvárať prostredie na realizáciu excellentného výskumu v oblasti inteligentných technológií, ale aj pomôcť lepšie prepájať výskumníkov s priemyslom a verejným sektorm a dostávať inteligentné technológie do praxe.

V 1-on-1 rozhovore za asistencie publiká sa predstavia technologické firmy ktoré pôsobia v Žiline. Dovzieš sa čomu sa venujú, ako sa dostali tam kde sú, čo plánujú a snáď aj niejaké pikošky.

#3 Vlkov Mesačník - Marián "Vlko" Vlčák (Finstat)

Vlko vás rezkyom temmom v pár minútach prevedie udalosťami, ktoré ho v IT svete v uplynulom
